

Trip Management & School Shop Centralised or De-Centralised

Whether you wish to bring all transactions to a single place or you prefer to have each faculty collect money from trips / sales, IdentiTrip V2 is the answer.

IdentiTrip will ensure that trips are run professionally, efficiently and easily. Full reporting is available instantly across your network. As Finance Manager / Bursar you will be able to interrogate all transactions individually or as a whole, for any or all trips. Reconciliation of funds whether collected centrally or across your campus will be quick and easy.

Extended Trip Management Features

IdentiTrip V2 allows additional trip details and information to be recorded easily. Parental Permission, E111, Indemnity Form and Passport confirmation can all be performed on the system. This allows a one click check on who has provided the correct forms and who has not.

Deposit Paid Countdown

IdentiTrip V2 allows you to allocate total trip places, the countdown shows remaining places, only allocating a full place when a deposit is received. **Never over subscribe again!**

Split Cheque Capability

Do you receive single cheques for multiple children, or cheques with a different surname? V2 allows you to allocate one cheque to several payments and to link the cheque to those payments.

Full Reporting in an Instant

Utilising Crystal Reports enables you to view details for almost any parameters you may require.

Reports Include:

- Current Trips
- Archived Trips
- Individual Trips
- Transaction from any Time Period
- Specific Transactions
- Cheque Payments
- Trip Balances by Trip, Class or by Pupil
- Parental Permission, E111, Indemnity

Trip Expenditure Vs Income

Accounting for your trips and managing the expenditure is made easy with IdentiTrip. From day one, you are able to enter all fixed and ad hoc costs against each trip. The cost reconciliation reporting will give you a clear and instant evaluation of trip costs Vs expenditure.

School Shop Manager

School Shop is an additional module for IdentiTrip V2.

The shop module allows you to control the sale of a variety of goods:- school uniform, stationary, event tickets and many more. Working just like a point of sale system the shop facility includes stock control, receipting and full sales reporting.

Whether you wish to use the shop in a central location for uniform sales or, across the campus for sales of varied products, just like IdentiTrip all the information and reporting is available across your network. Being centrally controlled provides complete visibility of sales and stock to the Finance office.

Transactions are quick and easy with automated recording and audit trail. Put simply, IdentiTrip shop module allows your school to operate 'like a shop' with the minimum of administration overhead
